

# GOAL STATEMENT

## **Computer Aided Drafting**

Thomas Jefferson High School

The Computer Aided Drafting course is designed for the novice user to develop the fundamentals of drafting using AutoCAD. AutoCAD is a state-of-the-art design and drawing software package used in today's engineering, architectural, and design industries.

During the course the student will:

1. Apply scale as a way of relating concepts and ideas to one another by measurement.
2. Apply knowledge of information technologies of encoding, transmitting, receiving, storing, retrieving, and decoding.
3. Apply and evaluate
