

The QSP Point-of-Sale System, which replaced the SNAP System, is complete now. Your child's lunch account balance will be updated on PowerSchool, and you will have the ability, through [payforit.net](http://payforit.net), to view your child's purchases and to add money to their account on line. A safeguard security feature of the QSP System ensures that your child is the only one with access to his or her account.

When the student's PIN number is entered, the QSP System is programmed to post dietary and purchase alerts to the cashiers that "pop up" on their viewing screen. The Student ID numbers will stay the same as last year as the same procedures are in place when checking out with the cashier. Updates on the QSP System will be posted on the District website as they occur.
