# Climate Change

By: Caprice Kaasa

Our planet has been facing climate change for years. It's a big problem that has a major effect on our ecosystem.

Climate change is mainly caused by humans, for example, the burning of fossil fuels. When factories burn fossil fuels it releases gas into the air which acts as a blanket trapping heat from the sun and warming the earth. Fossil fuels power our homes and other buildings but some people are arguing we need to get rid of fossil fuels and use other ways of electricity like solar power.

Another cause is deforestation. Trees store a lot of carbon and when they are cut down to make room for towns and roads and to turn trees into things like paper, and chairs, all that carbon is released into the environment.

## Climate change (*continued*)

Climate change is having a bad effect on our environment, but people are trying to stop it. That's what Greta Thunberg is doing. Only 16 years old, On September 23rd, 2019, Greta spoke to world leaders about climate change. Her speech included her standing up for the environment and asking a question, "How dare you?" She talks about how she should be in school halfway across the country, but is instead telling adults that they need to treat the earth better, and how we need to act NOW.

If you want to help heal the earth a good way is to plant a tree. They take carbon dioxide from the atmosphere, and store it. Kind of like how rice soaks up water. Climate change is important and its crucial to know how it affects our planet and what we can do about it that we aren't doing.

# California Wildfires Are Back?! By Ava Lucas

As you may know, there were some California wildfires in 2018, but it seems like they are making a comeback, but not in a good way. There have been 5,980 wildfires in California in 2019 as of November! They have burned over 177,003 acres in that time!

“Why is this happening?”, you may be thinking. Well, the weather in California right now is very hot and dry at the moment. “What can I do to help?”, you may also think. Well, you can ask your parents to donate to Red Cross, California Fire Foundation, Salvation Army, and even Google! The wildfires are spreading fast, but if we work together, we can stop them even faster!

# Sea Turtles Are Going Extinct

By: Kalli Steggert

It may shock you, but nearly ALL types of sea turtles are going extinct. This is because the sea turtle population's shells are being removed, their eggs, their meat, and their skin. The sea turtles suffer from poaching and over-exploitation. It has nothing to do with the plastic straws, either. The sea turtles' extinction will affect us, too. Seagrass will eventually die off, it will turn to affect marine life, and sea turtles. Help support the ecosystem when they nest. 4,600 sea turtles are killed each year, so if this continues to happen, our ecosystem will become completely out of balance. Fishing doesn't help, either. Sea turtles are wrapped in fishing nets when people go fishing. The sea turtles' population is in danger, and I hope this article helps you learn about them.

# The Amazon Rainforest Has Burned Down

What's going on? Did you know that raging fires are spreading across the Amazon?

How did the fires start? Most of it is caused by deforestation. People cut down trees and burn them to clear space for farms and cattle ranches.

# Tigers are Going *Extinct*

By: Ava Sorley

Recently, the population of tigers all over the world are decreasing! Tigers are now classified as **endangered**. It is estimated that there are only 3,900 tigers remaining in the wild worldwide. Tigers are going extinct because people are illegally hunting for their meat and destroying their homes. About **100** tigers are killed each year. In the last 10 years, about **1,000** tigers have been killed! If tigers die off, then the population of deer, wild pigs, antelope, and gaur will rise because Tigers eat those animals. Tigers also play a role in health and diversity of an ecosystem. Tigers are important and we need to save them!

Thanksgiving is a U.S. tradition compares the holiday with a meal held in 1621 by the Wampanoag and the Pilgrims who settled at Plymouth Plantation. # Pittsburgh Penguins

The Pittsburgh Pens are 4th in the metropolitan division, behind the Hurricanes. With Sidney Crosby injured, along with Letang, and Hornqvist, things aren't looking too good for the Penguins. Will Malkin be able to hold up the team? Meanwhile, we haven't forgotten the lasting impact Phil Kessel and Marc Andre Fleury have left on the team. It's going to be a bumpy road for the Penguins but they might just win the Stanley Cup this year. By: Caprice Kaasa

## The Steelers Are Still In

The Steelers are still in the wild card and they are 5 and 5. Ben Roethlisberger is injured so he will probably not play the rest of the season instead Mason Rudolph is the quarterback for now. But when Ben comes back we will start winning again.

By Liam Sandrock

# The New England Patriots

The Patriots are in the NFL, which means they are a football team. They are currently first in their division. They have nine wins and one lose. They are rivals with the Colts, the Ravens, the Steelers, and many others. Their quarterback is Tom Brady. The Patriots have won six super bowls. The Patriots home field is Gillette Stadium.

## HOW TO DRAW THE SHAPE OF A HEAD

FIRST: DRAW A CROSS. DO IT LIGHT. WE WILL BE ERASING IT LATER.

YOUR CROSS SHOULD LOOK LIKE THIS:

BY: AVA SORLEY

YOUR CROSS CAN VARY IN SIZES DEPENDING ON HOW LONG, SHORT, WIDE, OR SKINNY YOU WANT YOUR HEAD. NEXT, DRAW A HEAD OUTSIDE OF THE CROSS USING IT AS A GUIDE. ADD EYES, A MOUTH, EARS, A NOSE, AND MAYBE SOME HAIR. FINALLY, YOU HAVE A PERFECTLY DRAWN HEAD.

## *How to make scratch off paper*

First, take a normal piece of paper and color the entire thing in markers. It can be different colors or all the same colors.

Next, cover the whole paper with transparent tape.

Then, take black acrylic paint and paint over the tape.

Finally, once the paint dries, take a sharp pencil or pen and scratch at the black paint and your design will show through!

By:Ava Sorley

## **How to make perfect stripes**

**Do you love putting stripes on your artwork, but they are always uneven and messy? I have a trick for you! Take some tape. It can be clear, or opaque. Put it on whatever would be working on how you want. (This will not work with paper) Then paint, color, or cover the whole entire rest of the area that does not have tape. Wait for it to dry. (If you used paint) Finally, carefully pull off the tape. Enjoy your perfect stripes!**

Q. How can you stop a bully?

A. Stand up to them show them that you aren't afraid of them. Also backing away is a great option so they know that you do not want to be bothered. Asking an adult is always a good idea to stop the the bully. I hope that helps.

Q. I'm too nervous to talk in larger groups of people

A. It's always easy for me when I'm in a big group of people to just close my eyes and relax, and then when I get comfortable to open my eyes and to realize that I just talked in front of a crowd. I love that feeling. Here's another one on relaxing, take a deep breath and relax. I hope that helps.

Q: How do you keep up with your grades and after school activities?

A: I would suggest to try your best in school and try to worry about your grades before your after school activities. If you are too busy with your after school activities, try to narrow your activities down to the ones you really want to do. Or if you need to get your activities in order, get a planner. I really hope that helps.

Q: How do you remember what day it is ?

A: The day of the week is posted in the lobby, and is changed daily. Maybe write it on your calendar so you remember. I hope that helps.

## What's Your Favorite Club?

I put out a survey this week asking about kids' favorite clubs. The winner was Newspaper Club.
