BEHAVIORAL HEALTH EMERGENCY SERVICE

(for authorization of involuntary commitments)

Allegheny County Information, Referral and Emergency Services (IRES)
412-350-4456 (or call 911) TTY 412-350-3467

Information in the electronic version of this booklet is current as of February 2018. For the most current phone numbers and addresses please visit the DHS website: www.alleghenycounty.us/dhs/resource-guides or <http://pa211sw.org> for a searchable, comprehensive listing of services in Allegheny County.

**Allegheny County Department of Human Services
OFFICE OF BEHAVIORAL HEALTH**

Rich Fitzgerald, Allegheny County Executive

Marc Cherna, DHS Director

Patricia L. Valentine, Executive Deputy Director for Integrated Program Services

Denise Macerelli, DHS Deputy Director, Office of Behavioral Health

Jewel Denne, Assistant Deputy Director, Bureau of Mental Health Services

Latika Davis-Jones, Assistant Deputy Director, Bureau of Drug & Alcohol Services

The DHS Office of Behavioral Health (OBH) contracts for and monitors approximately 109 community-based agencies, which provide an array of services designed to meet the mental health and substance abuse services needs of County residents. OBH contracts with Community Care Behavioral Health and Allegheny HealthChoices, Inc. for operation and oversight of Medicaid Behavioral Health Managed Care Services.

resolve Crisis Network
1-888-7-YOU-CAN (1-888-796-8226)
333 N. Braddock Ave.
Pittsburgh, PA 15208

Round-the-clock telephone, mobile, walk-in, and residential crisis intervention services are available for all Allegheny County residents – children, adolescents, adults and older adults. Insurance coverage is NOT required.

Callers are put in touch with professional mental health and addictions counselors to receive immediate confidential crisis counseling, emergency support, and/or be referred to someone for ongoing help. In addition, a mobile crisis team that can travel to the site of the crisis is available 24 hours a day /7 days a week. Specialized teams are available for child, adolescent and family interventions. Walk-in services and short-term overnight services are also available. In addition, an after-hours drug and alcohol engagement center is available for individuals who experience a crisis involving substance use. Individuals will receive immediate assessment, support, education, and referrals to drug and alcohol services. resolve is made possible through the partnership of Allegheny County and the Western Psychiatric Institute and Clinic of the University of Pittsburgh Medical Center (UPMC).

Allegheny County Information, Referral and Emergency Services (IRES) at (412) 350-4456 or 911, TTY 412-350-3467

This number answers 24 hours a day /7 days a week and puts callers in touch with Allegheny County staff who can provide information, find someone to provide ongoing help, or help arrange involuntary examination and treatment when needed. All involuntary commitments must be authorized/approved by IRES, a Physician or the Police.

1-800-553-7499 or (412) 454-2120

resolve Crisis Network – 1-888-7-YOU-CAN (1-888-796-8226):

This toll-free number will access around-the-clock telephone crisis counseling, emergency care, and referrals for individuals in crisis situations. When indicated, mobile crisis services can be provided at home, at the crisis site, or at a provider's office.

Behavioral Health Emergency Services: Allegheny County Information, Referral and Emergency Services (IRES) (412) 350-4457. This number also answers 24 hours a day /7 days a week and puts you in contact with an Allegheny County staff who can provide information, find someone to provide ongoing help, or help you arrange involuntary examination, and treatment when needed.

The Warmline: 1-866-661-WARM (9276)

Provides emotional support.

The Bureaus of Adult Mental Health Services and Child and Adolescent Mental Health Services, through a variety of community-based agencies, provide, contract for and monitor recovery-oriented services designed to meet the mental health needs of children adolescents, youth, adults and older adults in Allegheny County. Services are designed to respond effectively to immediate needs and, utilizing the strengths of individuals and families, help people with mental illness and children and adolescents with serious emotional disturbance to live successfully in their communities.

Diversion and Stabilization (DAS): Respite/treatment services for those who can be diverted from inpatient care or are stepping down from inpatient care.

Family-Focused Solution Based (FFSB): In-home intervention structured to meet the treatment and support services needs of both parents and child.

Family Based Mental Health (FBMH): Provides intensive in-home interventions designed to prevent out-of-home placement.

Multi-systemic Therapy(MST): A multifaceted, short term, home and community based intervention for families of youth with severe psychosocial and behavioral problems.

Behavioral Health Rehabilitation Services Children/Adolescents (BHRS): Individualized strengths-based mental health services delivered in non-traditional community services, such as: home and school to promote a child's receiving of services in the least restrictive setting possible.

Brief Treatment: Mobile Therapy or Behavioral Specialist Consultant up to 6 hours/week delivered in the same manner as Behavioral Health Rehabilitation Services.

Outpatient Treatment Services: A variety of community-based treatment services including: evaluation and diagnosis, treatment planning, medication management, partial hospitalization and individual, group, family and play therapies.

Partial Hospital Program: Mental health treatment intervention delivered in a clinic or school setting to assist a child in transitioning from inpatient treatment or for prevention of psychiatric hospitalization.

Short-Term Inpatient Services: Provides psychiatric services for people with acute illness, with the goal of stabilizing symptoms so that clients can continue recovery at home and in the community. Individuals whose illness may pose a danger to themselves or others may be mandated for a psychiatric evaluation and, if necessary, treatment.

Extended Acute Care: Intensive psychiatric/behavioral health interventions 24 hours a day /7 days a week for up to 180 days. This service is intended as a step down from an acute hospitalization and to assist an individual with further stabilization so that he or she can return to identified living and treatment arrangements in the community.

Community and Outreach Services: Provides community and school outreach services to assist people in making full use of mental health services. Helps decrease the fear and stigma associated with mental illness and emotional disturbance. These services include outreach to persons who are homeless and may be on the street and without resources.

Community Treatment Team (CTT): A voluntary, primary, direct service which provides comprehensive and intensive outpatient mental health and addictions treatment in addition to rehabilitative and support services to persons with a serious and persistent mental illness and addiction problems. CTT services merge clinical, rehabilitative and support staff expertise within one service delivery team with minimal referral of consumers to other program entities for these interventions. CTT is designed for individuals who are not able to benefit from traditional community-based mental health and drug and alcohol services.

Psychiatric and Social Rehabilitation Services: Provides vocation, education, self-maintenance and socialization services to adults living with the effects of a moderate to severe mental health diagnosis. Services are geared toward growth and recovery and are offered during the day. **NOTE:** Participants must be referred by their mental health care provider.

Residential Treatment Facility (RTF): Residential treatment setting certified by the state, serving the intensive treatment needs of children and adolescents.

Residential Services: Residential programs designed to help adults and children in recovery. Services vary from 24-hour intensive programs to individually tailored housing supports and services in a variety of settings such as, community residential rehabilitation facilities (CRRs), supported housing, comprehensive mental health personal care home, long-term structured residence (LTSR); Host Homes.

Service Coordination (formerly known as Case Management): Adults with mental illness and children/adolescents with serious emotional disturbance usually are involved with a number of systems (e.g., education, physical health, insurance, government, juvenile/criminal justice systems, etc.) that must be coordinated to achieve best results. Service coordination helps people access appropriate systems and ensure that the systems are functioning in a coordinated manner.

Justice Related Services: (412) 301-8220 Provides mental health assessment, support and services as well as drug and alcohol assessment and services for persons with mental illness or co-occurring mental and substance use disorders involved with the criminal justice system. Services include: Pre- and Post-booking Diversion, Justice Related County Support Services, Mental Health Court, Drug Court, DUI Court and Justice Related State Support Services.

Clubhouses: An adult day program that provides an opportunity for growth and recovery to those living with the effects of a moderate to severe mental health diagnosis. Helps participants acquire skills and social development in a community setting using a “work day” model.
NOTE: Participants must be referred by their mental health care provider.

The Allegheny County Bureau of Drug and Alcohol Services provides supports, through a variety of community-based agencies, and recovery oriented services designed to prevent and treat substance abuse and addiction. These services respond effectively to immediate needs while utilizing the strengths of individuals and families, to assist people in treatment and recovery to live successfully in their community.

Prevention Services: Prevention is a proactive process, which helps individuals and systems to deal constructively with potentially difficult life situations, to keep healthy people healthy and to bolster the strength of individuals at risk of becoming substance abusers. Prevention activities include: education, problem identification and referral, information dissemination.

It requires a measurable, risk-based series of collaborative, culturally relevant strategies within the areas of information dissemination, education, alternative activities, problem identification and referral, community-based process and environmental prevention. This process is accomplished through school- and community-based services.

Intervention services: Designed to assist individuals by offering recovery supportive services to help de-intensify crises and improve decision-making and coping-strategy strengths. Services include housing, discussion groups, hotlines, outreach and advocacy.

Treatment Services: Social, psychological or medical services to assist individuals with patterns of substance use or abuse.

Detoxification Services: Goals of detoxification services for people with addictions include an evaluation, followed by elimination of the presence of the intoxication substance or the dependency factors, while keeping risk from withdrawal to a minimum. Detoxification services also include efforts to motivate and support people to seek ongoing treatment.

Inpatient Treatment Services: Medically managed services in either a free-standing or health care environment (hospital) for detoxification, residential treatment and rehabilitation.

Partial Hospitalization: Designed for individuals who can benefit from multiple treatment modalities and need more than outpatient services. Partial hospitalization involves a minimum of 10 hours of treatment per week. Hospitals have access to services for vocational assessment, job readiness and placement, GED preparation and testing, literacy and basic education tutoring, legal, medical and dental care, general health education, budgeting, credit restoration, housing assistance, income support, and social activities.

Outpatient Treatment Services: A variety of community-based outpatient treatment services are available including assessment, specialized professional medical consultation, physical examination, psychiatric evaluation, lab tests such as HIV and TB testing, treatment planning, therapy (individual, group and family) and aftercare planning and follow-up. Some programs are specifically designed for certain populations such as women, women with children or adolescents. Persons who temporarily need a high intensity services may benefit from Intensive Outpatient services of five to 10 hours a week.

Medication Assistance Therapy: prescription of approved medication in doses to achieve stabilization or prevent withdrawal as a means to assisting clients with discontinued substance use or dependence.

Case Management: Screening, assessment and case coordination of services including administrative documentation and management of treatment and non-treatment services recommended referred, and received by clients.

Add Recovery Housing: A recovery house is a sober, safe, and supportive non-treatment environment that provides temporary housing and case management that will connect participating individuals with treatment and peer to peer supports, housing resources and coordination, employment, and other community support resources that will meet other needs to their path to recovery. This recovery-oriented living environment promotes recovery from alcohol and/or other drug use and associated problems in efforts to stabilize an individual in their recovery before they begin managing their treatment independently.

Student Assistance Program (SAP): This secondary school program facilitates early identification and intervention for students who are experiencing difficulties in school due to mental health, substance use, and other behavioral health problems. Consultants from DHS contracted Drug and Alcohol, and Mental Health; Service Providers meet with school staff and participate in case reviews of students referred to the program. The consultants also provide student screenings for behavioral health problems, and ensure students and family members gain access to treatment and other services.
